

F.O.C.U.S. GREATER SYRACUSE
Forging Our Community's United Strength

Action Plan for a Sustainable Community
August 2005

The attached “ACTION PLAN FOR A SUSTAINABLE COMMUNITY” is a work in progress - a roadmap for action that will continue to be refined, updated, and communicated. The plan consists of recommendations gathered by over 50 citizens who shared their ideas and expertise at facilitated sessions convened by F.O.C.U.S. Recommendations identify current and potential champions and human and financial resources.

THE STUDY INCLUDES:

- **Definition:** “A thriving, sustainable community is a place that provides a safe, healthy, high quality of life for current and future generations, incorporating a comprehensive approach to economic vitality, social equity, and environmental stewardship”.
- **Challenge:** To build a thriving, sustainable community by integrating the efforts of citizens, educational institutions, businesses and government.

OVERALL THEMES:

- Citizens, governments, businesses and educational institutions have a major stake in the future sustainability of our community.
- Success will be achieved through collaboration, cooperation, and communication.
- Individuals play an important role. Everyone, children and adults, need to become aware of the ways to make our community sustainable and understand the consequences of doing nothing.
- Planning is a key ingredient including benchmarks, timelines, actions, and monitoring.

F.O.C.U.S. PLANNING PROCESS:

- Basic fact-finding, gaining knowledge, research for 12 months and continuing.
- Monthly presentations at F.O.C.U.S Core Group sessions featuring “How We Make Our Community Livable and Sustainable”.
- F.O.C.U.S. community-wide event “I Love CNY...F.O.C.U.S on BUILDING A LIVABLE- SUSTAINABLE COMMUNITY” reached over 450 attendees. Program participants spoke on behalf of business, government, academia, environment, workforce, media, and youth. There were 20 exhibits representing economic, environmental, and equity displays. The afternoon “Conversation with the Experts” attracted 100 participants.
- Think Tank planning sessions involved 40-50 people at each session representing non-profit organizations, engineering and architectural firms, planning agencies, colleges and universities, citizen advocates, F.O.C.U.S. volunteers, and government agencies. The sessions resulted in the attached document, “Action Plan for a Sustainable Community”.

F.O.C.U.S. - WHO WE ARE:

F.O.C.U.S Greater Syracuse is a citizen-driven organization that impacts change in Central New York by enabling citizens, organizations, and government to work together to enhance the quality of our lives and our economic future.

F.O.C.U.S. STRATEGIES – WHAT WE DO:

The F.O.C.U.S. community wide visioning produced 15,000 ideas and 87 goals to improve the area. These goals are a citizen directive for action. To advance these goals, F.O.C.U.S. partners with government, organizations, business, and the community at large in the following ways:

- **Convening** groups around a common goal - identifying human and financial resources
- **Communicating** messages, reports, monthly activities, and surveys
- **Serving as a catalyst and facilitator**
- **Providing a clearinghouse and database** of trends, ideas, tools, and solutions
- **Championing** ideas and solutions that benefit all citizens
- **Celebrating** successes and helping to create them

Please review the complete report and send us your comments or questions via telephone 448-8732 or e-mail focus@ci.syracuse.ny.us. Let us know if you want to be advised of or involved in future F.O.C.U.S. activities. See report on web site: focussyracuse.org
